Forecast for Friday 06 Jan 2023

Weather: Showers soon become heavy, merging into longer outbreaks of rain across northern ranges and accompanied by severe gale southwest winds overnight. Widespread showers continue through the morning die out from early afternoon, leaving most places dry. Outbreaks of rain spread east across the Isles from the evening. This will fall as snow across the summits as freezing level stays 800-1000m today.

Chance of cloud-free hill tops above 800m: 30% becoming 60% from the afternoon.

Low Cloud and visibility: Extensive cloud around 600-800m drops to lower slopes in heavy showers and snow, cloud becomes broken during the afternoon. Visibility will be good, falling very poor in heavy showers or snow.
